DEMANDS OF THE PROGRAM

It is important to understand the mental and physical demands of the LPN nursing program and the career of the nurse. Applicants to the nursing program must be physically and mentally able to cope with the rigors of the curriculum and the demanding nature of the health professions. Nursing students must be able to grasp scientific concepts, set up and answer basic math and algebra problems, and communicate well verbally and in writing. Physically, students must be able to remain on their feet for extended periods, lift up to 25 pounds, hear heart and breath sounds, read fine print and identify skin tones such as pale, ashen, gray or bluish.

Established academic and clinical requirements essential to the program of instruction apply to all students and cannot be waived. Attempts will be made to accommodate and retain qualified applicants with disabilities unless results of evaluations indicate that given reasonable accommodation an individual will still be unable to perform the essential functions required by the program.
