

## What is New Student Academic Advising Script

Guy: What is New Student Academic Advising? It is listed as one of my steps to enroll as a new student to Lane. Do I have to do it? Do they have one for my major?

Girl: Lane wants students to start right. They have a session for every major and they help students to take the right classes their first term based on their test scores.

Guy: I have chosen to do New Student Academic Advising online? Is this a good idea?

Girl: It depends. Do you have a computer with high speed internet? Do you know how to download software like Adobe Reader and Adobe Flash? Do you have Mozilla Firefox as a web browser?

Guy: Yes, I have all of the software you described downloaded to my computer already. And, I have to be out of town when the session on campus is scheduled.

Girl: The Online option is designed for students who can not attend the In-Person session. You will find out how to email an academic advisor or counselor if you have questions.

Guy: I have a friend who has not yet decided on a major but knows he wants to transfer to a university. Is there a session for him?

Girl: Yes, there are two sessions - one for undeclared students who want to transfer and one for students who want to complete vocational training but have not yet decided what kind.

Guy: If I decide to do the In Person session is there time for me to sign up?

Girl: Yes, just go back to [www dot lane cc dot e d u](http://www.dotlane.cc.edu) and choose Future Students. Select Steps to Enroll and then - First time or Prior College. Choose the in person option. Good Bye
